

EASY COMPLETE SHADE GARDEN

BEACH BOY HOSTA (6)

- Grows 14-16 inches tall
- Plant 12-14 inches apart
- Attracts butterflies & hummingbirds

BLUE WONDER TOAD LILY (3)

- Grows 18-24 inches tall
- Plant 9-12 inches away from one another
- Plant 9-12 inches away from the anemone
- Perennializing & Deer Resistant
- Blooms in late summer

MIXED CALADIUM (10)

- Grows 10-18 inches tall
- Large green, white, pink & red leaves
- Plant 6-9 inches from one another
- Perennializing & Deer Resistant
- Lasts from summer until frost

HONORINE JOBERT ANEMONE (5)

- Grows 36-48 inches tall
- Blooms up to 3 inches wide
- Plant 9-12 inches apart
- Perennializing & Deer Resistant
- Blooms in late summer

BLEEDING HEARTS (3)

- Grows 24-36 inches tall
- Plant 2-3 feet apart
- Add kelp meal at the time of planting to help improve drainage
- Blooms in mid-late spring

PLANTING TIPS

1. We suggest you place all of the plants in position before you actually start to dig. This will verify that you have them spaced properly. This particular garden plan works with a gardening area that is 5ft x 10ft or 50 square feet. Feel free to make adjustments based off of how much space you have available.

2. First plant the bleeding hearts in the back 1-2 inches deep. Make sure they are spaced 24-36 inches apart.

3. Plant the honorine jobert anemone 1-2 inches deep 12-18 inches apart and 12-16 inches away from where you planted the bleeding hearts.

4. Plant the beach boy hostas and the blue wonder toad lilies in a row in front of the anemone 12-14 inches apart from one another and 1-2 inches deep. They should be 12-16 inches away from where you planted the anemone.

5. Plant the mixed caladium 3-4 inches deep, 6-9 inches apart to fill in any left over space in front of the toad lilies and hostas.

6. Water well after planting and during dry periods.

7. Cut back foliage in fall after first hard frost.

BIRD'S EYE VIEW

= Beach Boy Hosta

= Blue Wonder Toad Lily

= Mixed Caladium
